Subject: MCNEIL CONSUMER HEALTHCARE ANNOUNCES VOLUNTARY RECALL OF CERTAIN OVER-THE-COUNTER (OTC) PRODUCTS

July 8, 2010

Dear Healthcare Professional:

I am writing to inform you that McNeil Consumer Healthcare, Division of McNEIL-PPC, Inc., is recalling 21 lots of over-the-counter medicines (FULL RECALLED PRODUCT LIST BELOW). This action is a follow-up to a product recall that McNeil Consumer Healthcare originally announced on January 15, 2010, which was initiated following consumer complaints of a musty or moldy odor, which has been linked to the presence of trace amounts of a chemical called 2,4,6-tribromoanisole (TBA). The risk of serious adverse medical events is remote. The recall is being conducted with the knowledge of the U.S. Food and Drug Administration (FDA). McNeil Consumer Healthcare is providing the following information to consumers on www.mcneilproductrecall.com web site.

MCNEIL CONSUMER HEALTHCARE ANNOUNCES VOLUNTARY RECALL OF CERTAIN OVER-THE-COUNTER (OTC) PRODUCTS IN THE UNITED STATES, FIJI, GUATEMALA, DOMINICAN REPUBLIC, PUERTO RICO, TRINIDAD & TOBAGO, AND JAMAICA

McNeil Consumer Healthcare, Division of McNEIL-PPC, Inc., is recalling 21 lots of over-the-counter medicines. The lots involved, listed below, are sold in the United States, Fiji, Guatemala, Dominican Republic, Puerto Rico, Trinidad & Tobago, and Jamaica. This action is a follow-up to a product recall that McNeil Consumer Healthcare originally announced on January 15, 2010, which was initiated following consumer complaints of a musty or moldy odor, which has been linked to the presence of trace amounts of a chemical called 2,4,6-tribromoanisole (TBA). The risk of serious adverse medical events is remote. This recall is being conducted with the knowledge of the U.S. Food and Drug Administration (FDA).

These lots are being added to the list of recalled products as a precautionary measure after a continuing internal review determined that some packaging materials used in the lots had been shipped and stored on the same type of wooden pallet that was tied to the presence of TBA in earlier recalled lots. All lots involved in the recall were produced before the January 15, 2010 recall, after which McNeil stopped accepting shipments of materials from its suppliers on that type of pallet.

Consumers who purchased product from the lots included in this recall should stop using the product and contact McNeil Consumer Healthcare for instructions on a refund or replacement. For these instructions, and information regarding how to return or dispose of the product, consumers should log on to the internet at www.mcneilproductrecall.com or call 1-888-222-6036 (Monday-Friday 8 a.m. to 8 p.m. Eastern Time, and Saturday-Sunday 9 a.m. to 5 p.m. Eastern Time). Consumers who have medical concerns or questions should contact their healthcare provider.

Any adverse reactions may also be reported to the FDA's MedWatch Program by fax at 1-800-FDA-0178, by mail at MedWatch, HF-2, FDA, 5600 Fishers Lane, Rockville, MD 20852-9787, or on the MedWatch website at www.fda.gov/safety/medwatch/default.htm.

The product lot numbers for the recalled products can be found on the side of the bottle label.

If you have any questions yourself, please call our Medical Affairs Department at 1-866-948-6883 (available Monday-Friday 8 a.m. to 8 p.m. Eastern Time) or visit our dedicated website for Healthcare Professionals at TylenolProfessional.com.

Sincerely,

Edwin K. Kuffner, MD
Vice President, Medical Affairs
McNeil Consumer Healthcare
