## Regarding your Social Security Number

We value the security and confidentiality of your personal information. We do not share your Social Security number. We take this sensitive data, and have systems built in to safeguard that information.

Our medical software has been configured to guarantee the safety and security of each patients account. We need complete demographic information to complete these guarantees. That is why we need your social security information to link your children to you and your insurance company.

In the event that you do not supply this information, you may end up incurring insurance or pharmacy costs due to this omitted data. We are not responsible for these errors, and will not be able to assist you in correcting problems if they arise from a missing social security information.

Sincerely,

A handwritten signature in black ink that reads "Stuart Feinstein".
